

RF measurement in SHINE cavity and cryomodule test stands

Wednesday, October 25, 2023 3:46 PM (4 minutes)

Vertical test stands(VTS) and cryomodule test facilities(HTF) have been built in SHINE cryomodule assembly and test hall(ATH). 633 TESLA type super conducting cavities and 75 cryomodules should be tested on these test stands. RF measurement and some result will be shown.

Keyword

RF measurement, TESLA type cavity
