

# The 26th International Conference on Accelerators and Beam Utilizations

## Wednesday, November 13, 2024

**Plenary Talk - 5F Grand Hall (1:40 PM - 3:40 PM)**

**-Conveners: Dong-O Jeon**

time	[id] title	presenter
1:40 PM	[153] The introduction to accelerators and beam utilization in CSNS	Dr WANG, Sheng
2:10 PM	[135] Recent Results of the J-PARC Linac Beam Commissioning	Dr OTANI, Masashi
2:40 PM	[154] Update on HEPS Progress	Dr HE, Ping
3:10 PM	[155] Research Activities and Future Opportunities with Rare Isotope Beams	Dr AHN, Deuk Soon

# Friday, November 15, 2024

## Plenary Talk - 5F Grand Hall (9:00 AM - 10:00 AM)

-Conveners: Changbum Kim

time	[id] title	presenter
9:00 AM	[136] Application of ion irradiation for quantum computing: Implantation of nitrogen containing molecules and sulfur for the realization of spin qubit registers in diamond working at room temperature	Dr KNEISS, Max
9:30 AM	[156] Toward ultra-bright x-ray pulses at PAL-XFEL	Prof. NAM, Inhyuk
