

The 26th International Conference on Accelerators and Beam Utilizations

Thursday, November 14, 2024

ICABU WG4 - 4F Ruby Hal (4:10 PM - 5:30 PM)

-Conveners: Sang-Wook Han

time	[id] title	presenter
4:10 PM	[53] RAON Beam Simulation Using Geant4	KIM, Kyungho
4:30 PM	[93] The necessity of Medical Physics Research on Rare isotope Accelerator complex for ON-line experiments (RAON) Low-Energy Beamline for Biomedical Experiments	KIM, CHAEEON
4:50 PM	[83] Effects of proton irradiation on SnO ₂ -based thin-film transistors	JEONGTAE, Kim
5:10 PM	[107] Effects of He-ion beam implantation on physical properties of Si doped Ga ₂ O ₃	CHUNG, Hyeyun
